NWEA Workstation Diagnostic

This web page checks the configuration of this computer to prepare it for MAP Growth or Summative testing and proctoring.

Each section, listed below, analyzes specific attributes and reports a "PASS" (check mark) or "FAIL" (X). If there are sections that fail, please consult your System Administrator for assistance so testing can be administered with the least amount of interruption.

This machine has passed the check.

TEST AGAIN

Devices that pass this check are much less likely to encounter issues that may disrupt testing.
We recommend running this check on several workstations, in each testing lab, prior to your first day of testing.

Oops! Where's my test window?

Either a pop-up blocker blocked it, the test window was moved or minimized, or the test window opened and was accidentally closed.

Here's what you can do to fix it.

Reason 1: A pop-up blocker is blocking the test window.
Solution: Ask your teacher to help you turn off the pop-up blocker and reload your test window.

Reason 2: The test window was moved or minimized.
Solution: Ask your teacher to help you find the test window or maximize the test window again.

Reason 3: The test window actually did open, but it was accidentally closed.
Solution: Refresh or close the browser window and try re-launching your test.

How To: Disable Pop-Up Blocking

Exit Test

Read the passage. There are several questions about this passage.

The White-Crowned Sparrow

1 Sparrows are small, common birds. They live in most parts of North America. There are many kinds of sparrows. These birds live in many different places, or habitats. Sparrows can live in the city or the country.

What They Look Like

2 White-crowned sparrows are one kind of sparrow. They are easy to spot. A white-crowned sparrow looks plain gray from far away. When seen up close, this bird has black and white stripes on its head. It also has a pale pink or yellow beak. Its chest is pale gray, and it has white bars on its wings. Its back is soft brown. The white-crowned sparrow's tail is long. The male and female birds look alike.

Where They Live

3 White-crowned sparrows live in bushy areas. Look for these birds in woodlands and thickets, which are areas with lots of trees and bushes. They scratch the ground for food in nearby open areas.

What They Eat

4 White-crowned sparrows eat many kinds of seeds, including sunflower seeds. They like grasses and grains, too. They eat some insects. They also like blackberries.

How They Nest

5 These birds make nests in shrubs. They build them up to ten feet high. The

Under which heading does the author include information about white-crowned sparrow babies?

- 1. Where They Live
- 2. What They Eat
- 3. How They Raise Their Young
- 4. What Their Song Sounds Like

That's it, you're in the practice test!

It's a good idea to have students revisit the tools at the top.
